Special Collection of Small Fruits

ONE DOLLAR EACH

BY MAIL, POSTPAID.

Order by number and not by variety, and do not ask for any changes.

Strawberries for \$1.00.

- No. 1—12 Beder Wood, 12 Clyde, 12 Bubach, 12 Seaford, 12 Ruby.
No. 2—12 Bismark, 12 Crescent, 12 Brandywine, 12 Glen Mary, 12 Gandy.
No. 3—12 Haverland, 12 Marshall, 12 Michel's Early, 12 Wilson, 12 Ruby.
No. 4—12 Echo, 12 Glen Mary, 12 Haverland, 12 Michel's Early.
No. 5—150 Strawberries, our selection of three varieties.

Raspberries for \$1.00.

- No. 6—12 Cuthbert, 12 Marlboro, 12 Columbian.
No. 7—12 Marlboro, 12 Columbian, 6 Cumberland.
No. 8—12 Golden Queen, 12 Cuthbert, 12 Kansas.
No. 9—12 Columbian, 12 Cumberland.
No. 10—12 Palmer, 12 Kansas, 12 London.

Blackberries for \$1.00.

- No. 11—12 Erie, 12 Lucretia, 12 Snyder.
No. 12—12 Early Harvest, 12 Erie, 12 Taylor.
No. 13—12 Rathbun, 12 Erie.
No. 14—50 Erie.

Currants for \$1.00.

- No. 15—6 Fay's Prolific, 6 White Grape, 6 North Star.
No. 16—6 Pomona, 6 Cherry, 6 LaVersailles.
No. 17—6 Red Cross, 6 Lee's Prolific, 6 Fay's Prolific.

Gooseberries for \$1.00.

- No. 18—6 Pearl, 6 Houghton, 3 Industry.
No. 19—6 Red Jacket, 6 Pearl, 1 Tree Gooseberry.
No. 20—20 Pearl.

Grapes for \$1.00.

- No. 21—2 Campbell Early, 3 Brighton, 3 Concord, 3 Diamond, 3 Moore's Early.
No. 22—2 Victor, 3 Agawam, 3 Worden, 3 Pocklington, 3 Lindley.
No. 23—3 Concord, 3 Delaware, 3 Niagara, 3 Salem, 3 Wyoming Red.
No. 24—3 Niagara, 3 Wilder, 3 Diana, 3 Moore's Early, 3 Agawam.

Our \$5.00 Garden Collection. No. 25.

By Express or Freight, purchaser paying charges.

VERY IMPORTANT.—Always write your Name and Address very plainly ; by so doing you will save us much trouble, and save the possibility of delay and mistakes in filling your order. All remittances, if practical, should be made by P. O. or Express Order or Bank Draft. We will not be responsible for money lost if sent in an ordinary letter. One and two-cent stamps accepted in sums of \$1 or less.

TO MY PATRONS.

I take great pleasure in presenting to my many patrons throughout the country and the public generally my annual Catalogue of Small Fruit Plants.

It is my aim and intention to supply only the best stock at the lowest prices and all intending purchasers will find it to their advantage to give me an opportunity to furnish estimates upon their list of wants.

Fruit Growers Say **Wood's Plants** **ARE THE BEST IN THE WORLD**

BECAUSE THEY YIELD SUPERIOR FRUIT.

It is not enough to know that plants grown from weak plants will also be weak, but the point is what will they produce.

This is a matter that is too seldom taken into consideration by the average buyer. Many of whom are more interested in hunting for the lowest in price. While progressive fruit growers appreciate that "*Blood will tell*" in plants, as well as in animals and realizing that their profits for a whole year or more depend upon the plants they use. They avoid "cheap" plants, as being poor economy; knowing that superior plants produce superior and more profitable fruit.

THE QUALITY OF MY PLANTS.

While I do not wish to appear self-conceited, yet in justice to me and my plants, and for the benefit of people who have never dealt with me. I claim to be the producer and distributor of the—**BEST PLANTS IN THE WORLD.** It is my business and my profession. I know that planters of fruit, buy them entirely on confidence. I realize that to lose a man's confidence is to lose his patronage. If you have never bought my plants, try them this year, and I will try and retain your confidence.

OUR NURSERIES. I am the largest grower of Small Fruit Plants in the World. A complete assortment of Standard Varieties of Strawberries, Raspberries, Blackberries, Currants, Gooseberries, Grapes, etc.

MY PLANTS. I grow all my own plants, they are grown on the best soil in the United States, which makes extra strong well rooted. We have to offer for spring of 1901 the largest and finest stock of plants we have ever grown.

MY PRICES have been carefully adjusted and are as low as those offered by other firms, and in many instances our immense stock and complete equipment enables us to make lower rates than can be procured elsewhere on same grades.

PLANTS BY MAIL. We can send plants by mail to any part of the country, and will guarantee them to reach my customers in good condition.

OUR GUARANTEE. My plants are warranted true to name, and of grade represented. Should any stock not prove true to name, I will either refund the purchase money of same, or replace the stock true to name, free; but am not liable for further damages; and while I am exercising great care to prevent mixture, the above is to be the condition on which all stock is sold.

REMITTANCES should be made by Post Office or Express Money Order, Bank Draft or Registered Letter.

HOW TO ORDER. Always use the order sheet in Catalogue in making out your order. Be sure to fill out the order sheet whether you wish it sent by Mail, Express or Freight, always be sure to sign your name and give Post Office and State.

BY EXPRESS OR FREIGHT. We deliver plants to Express or Railroad here free; and the purchaser pay's all express or freight charges on receipt of goods. We pack all orders free. All Express Company's send their wagons to our packing houses once a day for our express. If plants are shipped C. O. D., one-fourth the amount of bill must be sent with order.

EXPRESS RATES. On all plants by express, 20 per cent. off the regular merchandise rate, this saves you one fifth the regular rate on each shipment.

STRAWBERRIES.

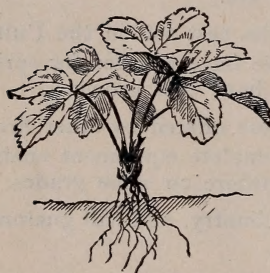

DIRECTIONS FOR CULTURE.

The Soil—The Strawberry may be successfully grown in any soil adapted to the growth of ordinary field or garden crops. The ground should be *well* prepared, and be *properly enriched* as for any garden crop. It is unnecessary to say that, if the land is wet, it must be thoroughly drained.

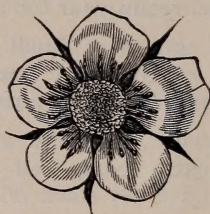

Culture in Hills—This is the best mode that can be adopted for the garden. To obtain fine, large, high-flavored fruit, pinch off the runners as fast as they appear, repeating the operation as often as may be necessary during the summer and early autumn. Every runner thus removed produces a new crown, and in the fall the plants will have formed large bushes or stools, on which the finest strawberries may be expected the following season. In the meantime, the ground among the plants should be kept clear of weeds, and frequently stirred with a hoe or fork.

Covering in Winter—Where the winters are severe, with little snow for protection, a slight covering of leaves or litter, or the branches of evergreens, will be of great service. This covering should not be placed over the plants until after the ground is frozen, usually from the middle of November till the first of December in this locality. Fatal errors are often made by putting on *too much* and *too early*. Care must also be taken to remove the covering in the spring, just as soon as the plants begin to grow.

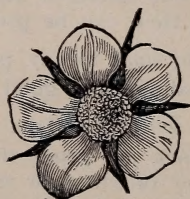

Mulching to Keep the Fruit Clean—Before the fruit begins to ripen, mulch the ground around the plants with *short* hay or straw, or grass mowings from the lawn, or anything of that sort. This will not only keep the fruit, clean, but will prevent the ground from drying or baking, and thus lengthen the fruit season.

A CHEAP PLANT.

PERFECT.

IMPERFECT.

A GOOD PLANT.

We do not grow cheap strawberry plants, so do not ask us for cheap prices.

No. 18.

STATE OF NEW YORK DEPARTMENT OF AGRICULTURE.

CERTIFICATE OF INSPECTION OF NURSERY STOCK.

This is to Certify that the stock in the Nursery of Allen L. Wood, of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Chapter 482 of the laws of 1898, and it was found to be apparently free in all respects from any contagious or infectious plant disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests. This certificate expires June 30th, 1901.

C. A. WIETING,

Dated, Albany, N. Y., August 3, 1900.

Commissioner of Agriculture.

STRAWBERRIES.

STANDARD, WELL TRIED VARIETIES.

My Strawberries are all from New Beds and are Strong and Well-Rooted Plants.

Headquarters for first-class Strawberry plants. Roots straightened out and neatly tied up in bunches of twenty-five. I put in twenty-six for twenty-five in every bunch. Box and packing free.

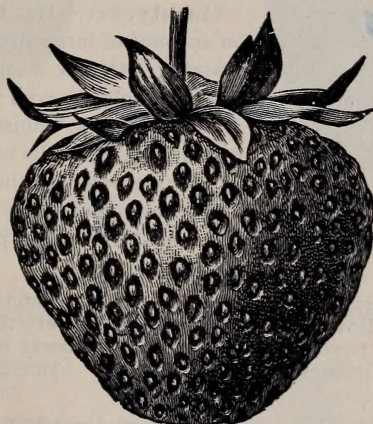

NOTE—Those that are marked (Imp.) are Imperfect Blossom and should be planted with (Per.) Perfect Blossom. Varieties every fourth plant, or better yet every fourth row.

Beder Wood, Per.—Large, roundish, conical, bright scarlet, moderately firm, fair quality; a very heavy bearer, one of the best, early. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Bismark, Per.—A seedling of Bubach, has all the good points of Bubach. Combined with perfect blooming, greater productiveness, larger and more perfectly formed berries of much higher quality. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Crescent, Imp.—This is a very prolific berry, bearing profusely even under neglect. In growth it is very vigorous and hardy, and produces better if the vines are not allowed to mat. They should be thinned, even if the hoe has to be used. Fruit colors on all sides at once. A great cropper early. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

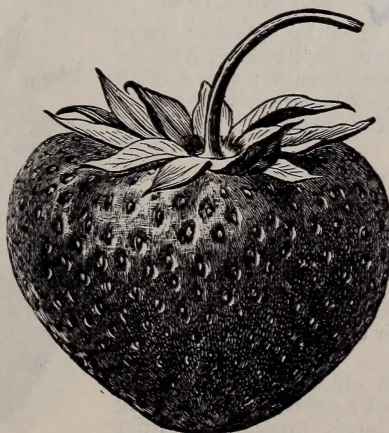

Clyde, Per.—This new berry seems to be gaining great favor wherever known. It originated with Dr. J. Stayman several years ago. It is a seedling of Cyclone, and Cyclone is a cross between Crescent and Cumberland. The Clyde has Crescent blood in it, and no doubt gets its immense productiveness from that variety. With us it is as large as Bubach, nearly or quite a week earlier and very much firmer. The plant is very vigorous and healthy, there being no trace of disease about it. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

BEDER WOOD.

Bubach, Imp.—Fruit large and handsome, roundish conical, bright scarlet, moderately firm, of fair quality; plant a strong grower, with large, healthy foliage, very productive; succeeds on light or heavy soil. Desirable for home use and near-by market. This has proved to be one of the best Strawberries. Season early to medium. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

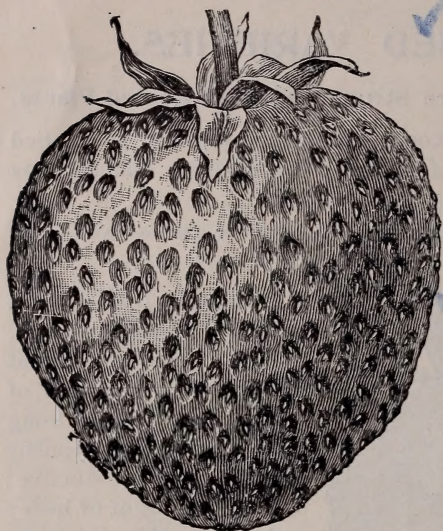

Brandywine, Per.—This fine new Strawberry has a perfect blossom and its fruit colors all over. Its season is rather late. It has a large green calyx that adds to the attractiveness of the fruit. The berries are very large, nearly always of regular, conical form; color, bright glossy red; flesh firm and very excellent quality. One of the most promising of the newer berries. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

CLYDE.

Champion of England, Per.—This berry was brought from England by an English gardener some years ago, and has been kept and grown by him exclusively for market. He has been able to lead all other growers in sale and price, whatever varieties they might have, getting nearly double the price. The plant is one of the strongest grown, very large and healthy, medium early. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

STRAWBERRIES—Continued.

SANFORD.

Glen Mary, Imp.—Very vigorous, enormously productive of large to very large, bright, deep red berries. Yellow seeds on surface; flesh very firm. Light red clear to the center; sweet, rich and high flavored; a decidedly good berry in point of plant, yield, great size, fine form, bright color, firmness and good quality. Price, 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Haverland, Imp.—Large, long, light red; moderately firm, medium quality, ripens all over. Very vigorous and healthy, and a great yielder; a valuable variety for home use or near market, early. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Marshall, Per.—Requires very strong, deep, rich soil. Fruit very large, deep red, of superior quality. Considered by many the largest and best extra show berry that can be grown. Price 30c. per doz., post paid; 60c. per 100, \$3.50 per 1000.

Michels Early, Per.—This is the first variety to ripen here; berry medium to large, roundish, bright crimson, firm, fair quality; plant a strong grower and a good bearer. We consider this valuable on account of its earliness. Price, 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Nick Ohmer, Per.—For market, for home use, or for exhibition, this is probably the greatest berry ever offered. It is certainly the most desirable berry that has come under my observation. It is my candid opinion that all who grow the Nick Ohmer will be astonished at its healthy vigorous growth and great productiveness. The fruit will be a surprise to all that see it, being of mammoth size, beautiful form and color, and excellent quality. Price 35c. per doz., post paid; 75c. per 100, \$4 per 1000.

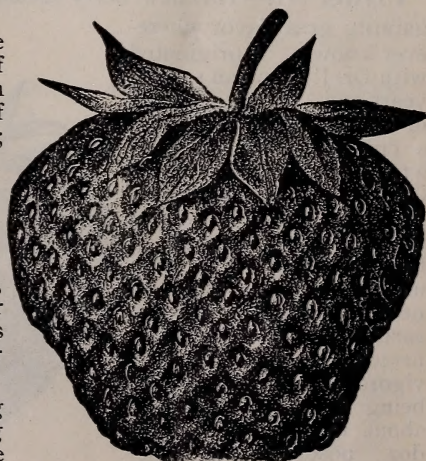

Ruby, Per.—Strong, healthy plants; large staminate blossom; uniformly productive; fruit of large size; dark red color clear through; firm enough to ship well; a fine keeper after being picked; and of the highest quality. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Seaford, Imp.—In Seaford I believe I have a berry fully equal to Bubach in size; far more productive, firm enough to meet all requirements; color deep, glossy red and quality fit for a king. The plant is as large as Bubach, and a much more vigorous grower, blossom imperfect, while it ripens its crop much faster and several days earlier, and therefore commands bigger prices. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Sharpless, Per.—This old, well known, big berry, in many localities is yet a great favorite, strong and vigorous grower, very large, productive. Price 25c. per doz., post paid, 50c. per 100, \$3 per 1000.

Echo, Per.—Introduced by us. This great table berry has the highest and richest flavor of all Strawberries. It has the natural Wild Strawberry flavor. It is very productive, fruit large. This berry is most delicious for family use, it possesses a rich flavor quite unknown among native varieties. We never had enough plants to satisfy our customers. Only a limited number of plants to offer. Price 50c. per doz., post paid; \$2 per 100.

Gandy, Per.—Has held its place in public favor on account of large size, fine quality and very late ripening. Of late years it is becoming more productive, yielding even to 4,000 to 6,000 quarts per acre on heavy, moist loam, or mucky lands. Ripening late, it sells at high prices, and is counted by many growers as their most profitable berry, so that every year the demand for Gandy plants increases. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

NICK OHMER.

RUBY.

STRAWBERRIES—Continued.

Wm. Belt, Per.—A well tested variety that is giving remarkable satisfaction as a large, handsome, productive berry for market or home use. Vigorous, thrifty, heavy plant, producing large crops under good common matted row culture. Berries extra large, conical, quite uniform in shape; brilliant, glossy red; ripens all over without green tips; good quality; carries well to market and brings highest price. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Wilson, Per.—Too well known to need description. The most popular canner and shipping berry known. More largely planted than any other variety in this state. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

~~45~~ Add 20 cents per 100 if you want them sent by mail, 50 plants at 100 rates, 500 at 1000 rates.

RED RASPBERRIES.**STANDARD VARIETIES.**

Plants are extra strong. Specially adapted for Fruit Growers.

Cuthbert.—Leading late market variety all over the country. A remarkably strong hardy variety; stands the northern winters and southern summers equal to any. Berries

very large, measuring three inches around; conical, rich crimson, very handsome, and so firm they can be shipped hundreds of miles by rail in good condition; flavor is sweet, rich and luscious.

Price 5c. each, 25c. per doz., \$1 per 100, \$7 per 1000.

CUTHBERT.

RED RASPBERRIES—Continued.

Columbian.—This great berry, believed to be a cross between Cuthbert and Gregg, and is superior and larger than Shaffer's Colossal, which it resembles in type and color. And can recommend it as worthy of a trial. For canning purposes, it is undoubtedly the very best Raspberry in cultivation, yielding 8000 quarts per acre. Unlike the Shaffer, it does not go to pieces in the process, and it does not shrink.

The Rural New-Yorker says: "The berry is of the same type as the Shaffer; that is, it propagates from the tips, does not sucker, and is similar in color. In shape it is longer than the Shaffer, more solid, and adheres much more firmly to the stems. In quality it is an improvement on the Shaffer, being sweeter when ripe and of high flavor. These comparisons are made with the Shaffer because we can thus best illustrate, and because of the fact that the Shaffer is to-day probably the most productive Raspberry under cultivation. In general appearance both are much alike in foliage and cane. On close examination marked differences are seen. The canes of the Columbian are more woody, its thorns are a bright, light green in color, while those of the Shaffer have more or less of a purple tinge." Price 10c. each, 40c. per doz., \$1.50 per 100, \$10 per 1000.

Loudon.—The best red midseason berry. Its points of superiority are vigor of growth, large fruit, beautiful rich, dark crimson color, good quality and marvelous productiveness and hardiness, enduring winters without protection and without injury to the very tips. It stands shipping the best of any variety, and will remain on bushes the longest without injury. Price 10c. each, 50c. per doz., \$2 per 100.

Marlboro.—Large size, light crimson color; good quality and firm. Vigorous and productive. One of the best, well-tested, large early berries for the North. Price 5c. each, 30c. per doz., \$1.25 per 100, \$8 per 1000.

Miller's Red.—Bright red color, which it holds after picking. Stout, healthy, vigorous grower; canes not as tall as Cuthbert; well adapted to carrying their immense loads of berries. Berries large; hold their size to end of season; round, bright red, core small; do not crumble; firmest and best shipper; rich fruity flavor. Commences to ripen with the earliest. We can highly recommend this for either home or market. Price 5c. each, 30c. per doz., \$1.25 per hundred, \$8 per 1000.

NOTE—If you wish them sent by mail, add 12c. per doz., 40c. per 50.
6 at dozen rates, 50 at 100 rates, 500 at 1000 rates.

I was somewhat astonished when I received your letter stating that you had filled and sent my order the next day after receiving it. This is something very unusual for any nurserymen to do, and I wish to express my sincere thanks, not only for this extreme promptness, but for the finely rooted plants which came this long journey in good condition.

ROBT. A. NEWTON, Oregon.

The 3,100 Gregg and Palmer's Raspberry plants you sent me this spring were the best plants I think I ever saw. I have sold a great many plants during the past twelve years. If you furnish plants like these mentioned above I will order what plants I need from you hereafter.

W. P. M. KUNKLE, (Dealer), Pa.

Your stock of Raspberries, etc., received. Will say they are as good as I have ever purchased. Will send you another order in the spring.

G. W. POOL, N. Y.

Your plants at hand. I have been buying all kinds of plants for the last fifteen years. I must say that yours were better than the best I have ever bought in fifteen years. I will order from you in the spring, as I think it would be too late now for fall planting.

J. TAVEMER, Iowa.

Your 300 Kansas plants received. They were very fine. Would rather have 300 such plants than a thousand poor ones. Thanks for your prompt shipment; also for those fine plants.

A. ABBOTT, Conn.

The stock bought of you this spring reached me all O. K. It was fine, and is doing splendid. Another spring I shall send you a much larger order. I wish I had sent for five times as much, and I would have, if I had known how nice your stock was.

F. J. M. WONSER, Iowa.

Stock received this A. M. Thanks for nice plants and prompt shipment.

A. C. PREBLE, Ind.

YELLOW RASPBERRIES.

Golden Queen.—This variety is almost identical with Cuthbert, except in color. Fruit large, productive; quality first-class. It is beyond doubt the finest and most profitable yellow berry grown. Price 5c. each, 40c. per doz., \$1.50 per 100.

BLACK RASPBERRIES.

Our Plants are Extra Strong and Well Rooted—None Better.

Cumberland.—This new raspberry originated in Pennsylvania and is supposed to be a seedling of the Gregg, with a dash of blackberry blood in it. It is claimed by its friends to be the largest blackcap grown, running nearly one inch in diameter. *The Rural New Yorker* speaks of it in the highest terms. B. F. Foster, a large grower, of Wayne County, writes as follows: "I had five acres of it in fruiting last summer and am delighted with it. I had Ohio and several other varieties growing side by side with it and under exactly the same conditions. The Cumberland fully doubled the yield of Ohio, and is far ahead of all other varieties on my grounds. The fruit is so large and so abundant upon it that it can be easily picked for a third less than other sorts, and it is of such a superior appearance as to command usually a little above the market price of other varieties. Price 10c. each, 60c. per doz., \$2.50 per 100, \$20.00 per 1000.

Gregg.—Very best of late blackcaps, very large, wants good soil to produce best results, fruit very fine and covered with bloom. It is the leading market variety all over the country, best for evaporating of any variety, as it is said to give most pounds to the bushel of any kind. Price 5c. each, 25c. per doz., \$1.00 per 100, \$6.00 per 1000.

Hillborn.—Closely follows Kansas, and resembles it in plant vigor, hardiness, productiveness, size and color of berry but ripens a little later and has a longer fruiting season. Price 5c. each, 25c. per doz., \$1.00 per 100, \$6.00 per 1000.

Kansas.—This most rampant grower of all the blackcaps is everywhere considered the one best blackcap of midseason. It is the heaviest grower of all, branches freely, is healthy, hardy; productive of very large, glossy, jet black berries, of excellent quality for home use or market. Price 5c. each, 25c. per doz., \$1.00 per 100, \$7.00 per 1000.

KANSAS RASPBERRY.

Ohio.—One of the best market varieties. Grown by the thousand for evaporating purposes, and for use in fresh state. Canes very vigorous, hardy and productive. Price 5c. each, 25c. per doz., \$1.00 per 100, \$6.00 per 1000.

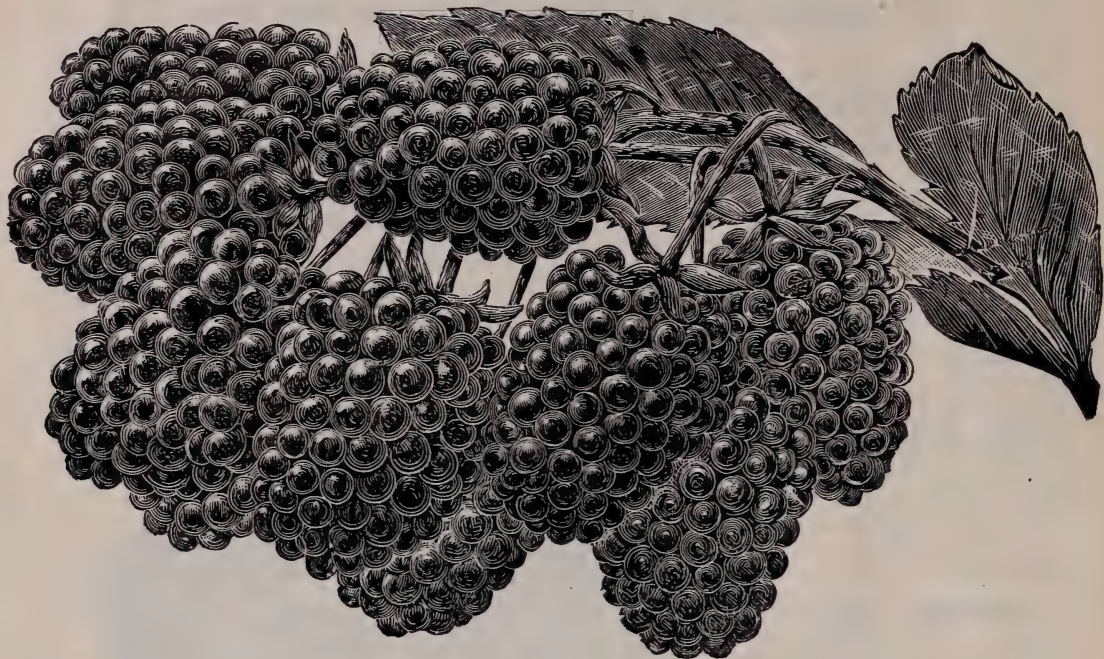

Palmer.—Has been tested from the Atlantic to the Pacific, receiving the highest commendation from all sources, and is fully established as the best and most productive early blackcap yet introduced. It is supposed to be a cross of Souhegan and Gregg. The vigor and healthy appearance of the bush, with its wonderful productiveness and its early ripening, have attracted much attention. Since Palmer made its appearance it has been fruited with such popular varieties as Doolittle, Souhegan, Gregg and Ohio, and surpasses them by far. Price 5c. each, 25c. per doz., \$1.00 per 100, \$7.00 per 1000.

Souhegan, or Tyler.—Very early. Canes vigorous and hardy; wonderfully productive. Fruit of good size, firm, sweet and pleasant. Price 5c. each, 25c. per doz., \$1.00 per 100, \$6.00 per 1000.

NOTE.—If you wish them sent by mail, add 12 cents per dozen, 40 cents per 50. Six at dozen rates, 50 at 100 rates, 500 at 1000 rates.

BLACKBERRIES.

Roots Cutting and Strong Sucker Plants with Cross Roots. Fine.

LUCRETIA.

Early Harvest—The earliest Blackberry, consequently one of the most valuable, were it hardy. Here it has proven hardy. Ripening in July, with its productiveness, it is eminently profitable for market, whilst its earliness and good quality make it a special favorite in the home garden, where it succeeds. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 1000.

Erie.—We have fruited the Erie for a number of years, and we find it one of the best, and its hardiness all that was ever claimed for it. It is one of the strongest growers, and will produce large crops on what would be called poor soil; its fruit is of the largest type, being very uniform in size, and perfect. See cut on back cover. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 1000.

Lucretia.—One of the low-growing, trailing blackberries; in size and quality it equals any of the tall-growing sorts. The plant is perfectly hardy, healthy and remarkably productive, with large, showy flowers. The fruit, which ripens early, is often 1 and 1½ inches long, by 1 inch in diameter, soft, sweet and luscious throughout, with no hard core; ripe before late raspberries are gone. Should be mulched to keep berries from ground. We can highly recommend this variety. Price 5c. each, 30c. per doz., \$1.25 per 100, \$8.00 per 1000.

Rathbun.—The largest of all blackberries. Plants hardy, vigorous, and a great bearer. Fruit very large, black and lustrous, and of highest quality. Market growers will fully appreciate the advantage a large berry has over a small one; the gain to him is two-fold—it costs less to pick the fruit, and from its superior appearance it brings more in market. See cut on back cover.

What L. H. Bailey, Professor of Horticulture, says:—The Rathbun Blackberry is now in full fruit and we are very much pleased with it. It is midway between a blackberry and a dewberry in habit as also in earliness. The berries are exceedingly large, glossy, jet black, and of good quality. I certainly think that there is a future for it. Price 10c. each, 60c. per doz., \$3.00 per 100.

Snyder.—Very popular for the north and northwest on account of its extreme hardiness; wonderfully productive, size medium, fruit juicy and sweet without the hard core of many sorts; canes remarkably strong and thrifty. More largely planted than any other of the ironclad varieties. We have a heavy demand for them every year. Season early. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 1000.

BLACKBERRIES—Continued.

Taylor.—Nearly as hardy as Snyder. Berries larger and of fine quality, sweet and juicy. Canes of strong growth, greenish yellow, of especial value for planting at the north, suited to low, moist ground. Price, 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 1000.

Wilson.—One of the largest and most productive of the early varieties. Produces an abundance of sweet, glossy black fruit, which holds well for days after picking. Its firmness makes it one of the best for shipping purposes. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 1000.

Agawam.—Of medium size, jet black, sweet, melting to the core. Plant hardy and prolific. A fine early variety. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 1000.

Minnewaski.—One of the largest and most productive; has been on trial for several years and receives the most favorable reports from nearly all sections. Fruit glossy black, tender, juicy, sweet, with fine aromatic flavor. Remarkably productive and hardy. One of the best for both market and home garden. Ripens early. Price 5c. each, 50c. per doz., \$2.00 per 100.

Eldorado.—It is as hardy as Snyder, is a larger berry and of best quality. Has been cultivated twelve years and never winter killed. H. E. Van Deman, National Pomologist, says: "Never have I tasted anything equal to Eldorado." I have fruited it and find it hardy and fine. We bought our first stock of the originator. Price 5c. each, 50c. per doz., \$2.00 per 100.

Austin's Dewberry.—This makes a stronger growth than Lucretia and its canes are nearly twice as large but has the same trailing habit as the Lucretia. The fruit is about same size as Lucretia but of a different shape, being shorter and thicker. Both Lucretia and Austin Dewberries are as large as the Wilson Blackberry. The Lucretia is three or four days earlier than Early Harvest Blackberry, and are two-thirds gone when Wilson commences to ripen, and Austin's is nearly or quite a week ahead of Lucretia, but not as good a shipper, being softer; but for a near market where earliness counts for more than firmness, Austin's will fill the bill. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10.00 per 100.

NOTE—If you want them sent by mail, add 12 cents per dozen, 40 cents per 50.

6 at dozen rates, 50 at 100 rates, 500 at 1,000.

A FEW TESTIMONIALS FOR SHIPMENTS.

The Blackberry plants came through in fine shape. They are the best plants that I have ever seen and I have seen lots of Blackberry plants. There were some of our neighbors present when I opened the box and they said they were the best plants they had ever seen.

JOHN MORRIS, Golden, Col.

Shipment of Gooseberries, Currants and Grape Vines I received in excellent shape and the grade all O. K.

J. H. BRADLEY, Ill.

I received the plants to-day and I thank you very much for the way they were packed and also the promptness with which my order was filled. If I need any more plants I shall surely send to you for them. ALBERT WEBER, N. J.

Enclosed find draft for amount due. Your stock received in good condition and open to please.

Northeastern Iowa Horticultural Society.

G. A. IVINS, Iowa.

I will write to you about the plants I received from you this spring, and will say they were very good, fresh stock, well packed and gave good satisfaction to my customers.

S. H. EATON, Me.

I have received from you the small fruit plants recently ordered, and am very much pleased with them; they are certainly very fine plants

H. A. HAYWARD, N. C.

I received the plants in good condition and am well pleased with them. Thanking you for your promptness.

F. J. CARL, Pa.

Enclosed find draft. Stock was fine and delivered in good shape.

L. H. SMITH, Mo.

Stock of plants and vines received and in good condition; just as fresh as when dug. I must say they are the largest and best for their age, and the money or price paid, grown in the world. It is a pleasure to do business with an honest man, and especially one who tries to live and let live. I thank you for extra promptness.

D. W. GILLETTE, Pa.

Box of plants received all right, everything all O. K. If the stock you sent me is a fair sample of what you grow I guess we may do considerable business together in the future.

HITCHCOCK'S NURSERY, Mass.

Plants arrived in fine condition, all O. K. Please accept thanks also for extras.

C. E. WOODRUFF, Ill.

Enclosed please find draft in full. We are pleased with your stock.

J. N. BARTELS & CO., Colo.

I herewith enclose draft for 500 Pearl Gooseberries. They were very satisfactory.

U. L. MOORE, Nebr.

I received the plants in good condition and they were fine ones. Thanking you for your promptness.

F. J. CARL, Pa.

Stock received in first-class condition. Have bought or seen none better. Thanks for treating us right. Please find enclosed draft.

PECK & REMINGTON, Iowa.

Raspberries, Currants, Gooseberries and Grape Vines came in good condition. They are all making a fine growth. I expect to send you another order this fall. Be sure and send me your price list.

CHARLES H. SCOTT, Iowa.

CURRENTS.

**SUPERIOR QUALITY AND UNIFORM GRADE, GUARANTEED
THE BEST IN THE WORLD.**

Largest grower of Currants and Gooseberries of any Nurseryman in the world. They are **choice plants**. They are grown on **soil** that is **specially adapted** for **Currants and Gooseberries**.

There is not over one-fifth as many Currant and Gooseberry plants in the country as there has been for the past three years. Order early so you will not get left. They will be very scarce before planting time.

Pomona.— Beyond comparison in productiveness and fine quality with any of the older sorts, and from present indications destined to supersede all other Red Currants. Its yield of fruit is something wonderful. From $6\frac{1}{2}$ acres of Pomona Currants has been sold at wholesale in three consecutive years, fruit amounting to \$9,000.00, or an average of over \$461.00 yearly per acre. What Currant is there that will make as good a showing as this? The Pomona is a vigorous and robust grower, healthy, hardy and an early bearer; foliage abundant and remains on the bush much later than other sorts. The

fruit is very beautiful in appearance, of a clear, bright translucent red, bunches large and full, the size of the berry very near as large as the Fay. It is of remarkable fine quality, sweet and mild, and less acid than any we know of, with very few seeds and these are small. The

fruit is so bright colored and handsome that it always attracts buyers at market and it not only hangs on the bush a long time after ripe but will also keep in good condition a long time after being picked. It bears regularly year after year with the same unflinching abundance and its immense yield, attractive appearance and fine quality make it the most profitable and desirable of all Currants. Price 10c. each, \$1.00 per doz., \$4.50 per 100.

What E. B. Lewis, of Lockport, N. Y., says:—From the 200 plants of Pomona I planted two years ago, I picked this season 1025 pounds of Currants. If I had land enough I would plant out five acres of strong two-year plants.

WAUKEE, IOWA, June 23, 1899.

Gentlemen:—Out of over twenty sorts that we have fruited now, the Pomona is the most abundant bearer and has the largest fruit and best color of any Currant on the place.

Yours truly, J. WRAGG & SONS CO.

CURRANTS—Continued.

Fay's Prolific.—Perhaps no other currant has received so much praise as has Fay. It is very large, and always sells well and at high price. Yet the Fay is not universally popular, as it does not seem to do well in all parts; in fact, some rather condemn it. We consider it does better on heavy clay soil, well manured and thoroughly cultivated, than on lighter soil. Strong, two years. Price 10c. each, 75c. per doz., \$3.00 per 100.

Lee's Prolific.—(Black.) Considered one of the best black currants. The fruit is large and produces abundantly. Never attacked by insects of any kind. Valuable for making jellies, jam and wine. Strong, two years. Price 10c. each, 75c. per doz., \$3.00 per 100.

Cherry.—Strong grower, fruit very large, sometimes measuring one-half inch in diameter. Should have good soil and thorough cultivation. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

Red Cross.—Jacob Moore, the originator, says:—"Red Cross clusters are long and have well necked berries, double the size of Victoria, and far superior in quality to Cherry or Victoria. Nothing will compare in quality with Red Cross but White Dutch, which is too small. Red Cross was first fruited in 1889. I have seen the fruit growing in such masses as to hide the upper branches from view. It is later than Cherry; the plant makes larger growth than Cherry, and yields two or three times as much fruit. I recommend it with confidence. I consider Red Cross one of the best of the new Currants. Strong, two years. Price 10c. each, 75c. per doz., \$3.00 per 100.

La Versailles.—Very large, red; bunch long, of great beauty and excellent quality; one of the finest and best. Should be in every collection. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

Prince Albert.—A large, light red berry; long bunch. Bush an erect grower, with heavy foliage. Very productive. Ripens late. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

White Grape.—The largest and most productive white currant grown. Flavor, sweet and very fine for the table. Not desirable for the general markets, because people don't seem to take to white fruits. The best table currant. Strong, two years. Price 10c. each, 75c. per doz., \$3.00 per 100.

Victoria.—Large; bunches long; berries bright red color, of excellent quality; bush good grower; extremely hardy. Perhaps this is the best of the older varieties of currants. Strong, two years. Price 10c. each, 75c. per doz., \$3.00 per 100.

Red Dutch.—Berries medium; profuse bearer; bush very strong grower and comparatively free from borers. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

North Star.—The strongest grower among the the red varieties; should be given plenty of room and ground kept well enriched; bunches average four inches in length and are freely produced. Combines extreme hardiness, vigorous growth, extra quality and great productiveness. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

NOTE.—If you wish them by mail, add 12 cents per dozen, 40 cents per 50, 6 at dozen rates, 50 at 100 rates, 500 at 1000.

GOOSEBERRIES.

EXTRA FINE PLANTS. NONE BETTER.

REMEMBER

Now is the time to order if you want first-class stock. My soil is especially adapted for growing Extra Strong Gooseberries.

PHOTOGRAPH OF A BRANCH TWO YEARS OLD.

PEARL—THE MOST PROLIFIC GOOSEBERRY KNOWN.

What an Old English Gardener Says:

The Pearl is my favorite. It is a splendid kind, hard to beat, taking it all through. Some of the bushes that have only been planted one year, I picked three quarts from this season. It has not shown any signs of mildew, and such a robust growth I never saw in the old country. Some of the new wood is over two feet long and nearly half an inch thick. The White Smith and Downing mildewed badly this season.

SMITH FALLS, ONTARIO.

THOMAS HAGUE.

GOOSEBERRIES—Continued.

Pearl.—This is the best American variety—a cross between Houghton and one of the large English varieties. It is very hardy, entirely free from mildew, superior in size and quality and more productive than the Downing, and is likely to supersede this standard sort. From the many flattering testimonials of this new berry from most of the leading horticulturists, we have pleasure in recommending this variety for small or extensive planting as one of the best berries. Price 10c. each, 75c. per doz., \$3.00 per 100.

Downing.—One of the oldest and best known sorts. Large, handsome; pale green, of splendid quality for both cooking and table use; bush a vigorous grower and usually free from mildew. One of the best for home use and market. Price 8c. each, 65c. per doz., \$2.50 per 100.

Houghton.—A very productive, hardy berry, of medium size, and for general purposes one of the best. Price 8c. each, 65c. per doz., \$2.50 per 100.

Red Jacket.—An American seedling of large size; smooth, prolific and hardy, of best quality. Has been well tested over a wide extent of territory by the side of all the leading varieties. A wonderful cropper, with bright, clean, healthy foliage. Price 10c. each, \$1.00 per doz., \$7.00 per 100.

Industry.—Berries of largest size, excellent flavor; pleasant and rich; dark red color when fully ripe. Strong, upright grower; less subject to mildew than most of the foreign varieties. The best known and most successful English sort. Price 15c. each, \$1.50 per doz., \$10.00 per 100.

Tree Gooseberry.—Upright growth; berries large, oftentimes measuring one and one-half inches in diameter; of excellent flavor; color dark red; of English birth. Price 25c. each, \$2.00 per doz.

NOTE.—If you wish them sent by mail, add 12 cents per dozen, 40 cents per 50.

Six at dozen rates, 50 at 100 rates, 500 at 1000 rates.

Out of the 2000 Currants (Fays) I got from you, I only lost 8 plants. I shall want at least 1000 more this fall. Can I have them at the same price. GEO. J. DENIG, Laporte, Colo.

The 100 Pearl Gooseberries came in fine shape and certainly No. 1 in every respect. Many thanks. Will remember you again.

S. T. KENYON, Ohio.

Orders for Pearl Gooseberry received. Thanks for the extra number. All good roots and in very good condition. Our State Authorities have recommended the Pearl Gooseberry the best all around gooseberry.

S. E. EVANS, Cal.

The Gooseberries, Blackberries and Currants you sent to Pajac Point Farm, Rhode Island, arrived promptly and in good condition. It was a surprise and a pleasure to find such well-rooted plants and so carefully dug. Your motto is, evidently, "Room at the Top." Please accept our thanks.

W. B. WELLING,

Wall Street, New York.

The Gooseberries and Currants came in good condition. Hope they will prove a success here in our valley.

E. W. DOWNER & SON, Col.

The 21,500 Gooseberry and Currants bought of you this spring are all doing finely; not over 200 lost in the entire lot.

E. S. HOLMES, N. J.

[P. S.—Mr. E. S. Holmes bought all 2 years No. 2 grade of Gooseberries and 2 years No. 3 grade of Currants. This goes to show what kind of stock my No. 2 grade and No. 3 grade is.]

We received the plants all right and are well pleased with them. I never saw nicer Gooseberry and Currant plants. I enclose you another order for Grapes. I expect to send you a larger order in the spring.

CHAS. H. SCOTT, Iowa.

I received goods all right and am very much pleased with them. Neighbors say they never saw such nice plants before. I will want some more next season.

CHAS. P. SCHIELD, Ohio.

The nursery stock reached me to-day at noon. I am well pleased. Never have I had such a fair bill of goods shipped to me since I have been in the nursery business. Enclosed please find amount of your bill.

R. W. CHAPMAN, Minn.

The Pearl Gooseberry, Eldorado Blackberry, Columbian Raspberry, etc., I purchased of you in the spring of 1896, have all done fine. The Columbian and Loudon Raspberries, I never saw nicer canes and berries in my life. They seem to be at home here in this soil and climate; also the Eldorado Blackberry. Please quote me price on 500 Columbian Raspberries for spring.

J. H. CHAMBERLIN, Ill.

I received the plants to-day, they being about 10 days on the road, but were in good order and fine plants in every way. Much obliged for the same and free packing.

B. SNYDER, N. Y.

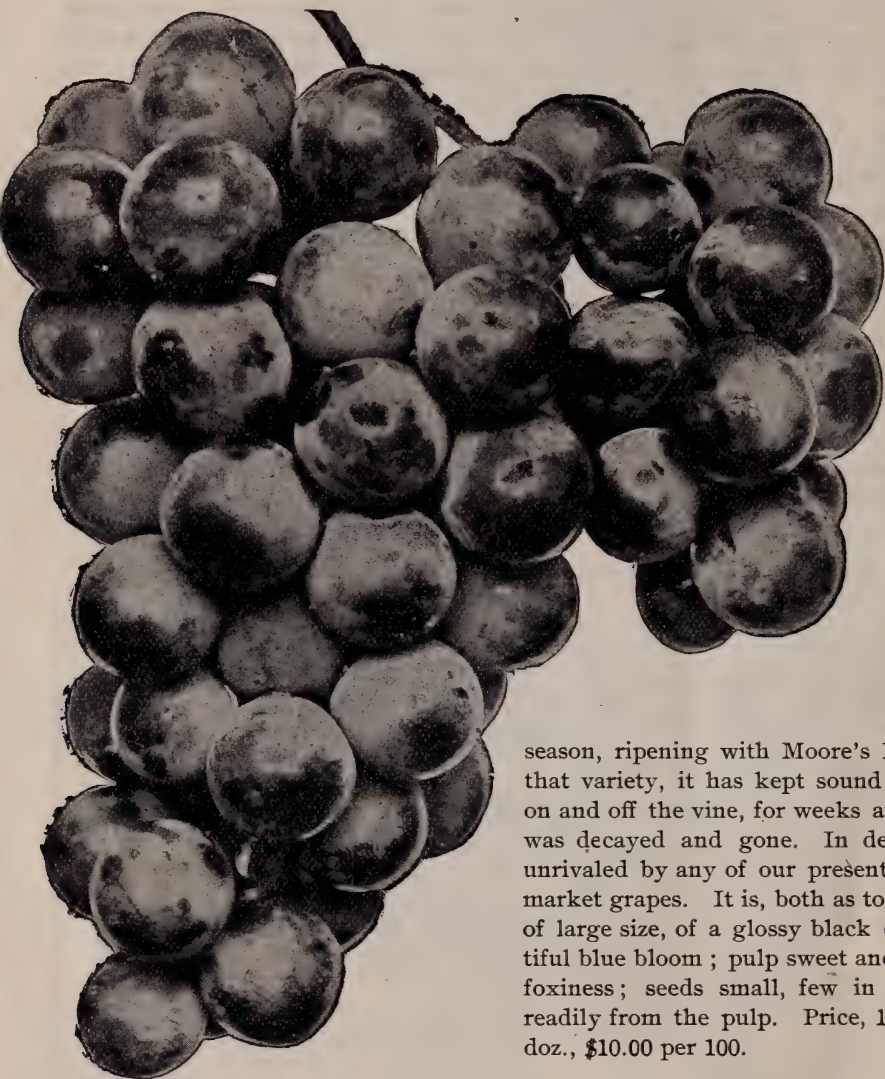

Enclosed find my order for fall. All the plants you shipped me last fall and this spring are all growing well. I am well pleased.

J. TAVERNER, Iowa.

GRAPES.

There is scarcely a yard so small, either in country or city, that room for one to a dozen or more grapevines cannot be found. They do admirably trained up to the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest of fruit.

Our stock of two year Grapevines was never finer, and we can quote you a very low rate on any variety by the thousand.

Campbell's Early.

Its strong, hardy, vigorous growth; thick, heavy, perfectly healthy foliage; very early ripening and its abundant bearing of large and handsome clusters of excellent quality, combined with the most remarkable keeping and shipping qualities form a combination unequalled by no other grape. Its period of full maturity is from the middle to the last of August, according to the

season, ripening with Moore's Early, but, unlike that variety, it has kept sound and perfect, both on and off the vine, for weeks after Moore's Early was decayed and gone. In dessert quality it is unrivaled by any of our present list of first early market grapes. It is, both as to cluster and berry, of large size, of a glossy black color, with a beautiful blue bloom; pulp sweet and juicy; free from foxiness; seeds small, few in number and part readily from the pulp. Price, 15c. each, \$1.50 per doz., \$10.00 per 100.

Nectar.—Has more good qualities for the home garden than any other variety we know, of recent introduction. Being so remarkably free from mildew and rot, it is not easily effected by unfavorable climatic conditions. It ripens with Moore's Early, and can be left hanging to the vine till frozen without its quality being the least impaired—in fact improves every day. A good strong grower and large annual cropper. The fruit is black, with heavy blue bloom; quality the very best; pulp tender and skin tough, and will hang a long time after gathering without dropping from the bunch. We feel certain there is no variety that, in all sections of the country, will give as good satisfaction. Price, 15c. each, \$1.50 per doz., \$10.00 per 100.

GRAPES—Continued.

Agawam.—(Roger's No. 15.) Berries very large, with thick skin, pulp soft, sweet and sprightly, very vigorous, ripens early. Price 10c. each, 75c. per doz., \$3.50 per 100.

Brighton.—Red. Perhaps the best red grape in cultivation. Bunch large and compact; a strong grower and very productive; quality good. Price 10c. each, 85c. per doz., \$4.50 per 100.

Catawba.—Berries large, round; dark copper color, with sweet, rich, musky flavor. Requires a long season, good keeper. 10c. each, 75c. per doz., \$3.50 per 100.

Concord.—A large, purplish black grape, ripening about the middle of September; vines remarkably vigorous and free from disease; the standard for productiveness and hardiness all over the country. Price 8c. each, 60c. per dozen, \$3 per 100.

Colerain.—Color light green with delicate whitish bloom; size medium; ripens early and hangs well on the bunch; a good grower and abundant bearer; skin thin and tender, 12c. each, \$1 per doz., \$5 per 100.

Clinton.—Bunches small and compact; berries round, black, pulpy, juicy, of medium quality; valuable for wine and culinary purposes. Price 8c. each, 60c. per doz., \$3 per 100.

Delaware.—Red. A grape of finest flavor. Bunch and berry small and compact; sweet, thin skin; slow grower, and must have good soil and careful handling to get best results. Price 10c. each, 75c. per doz., \$3.50 per 100.

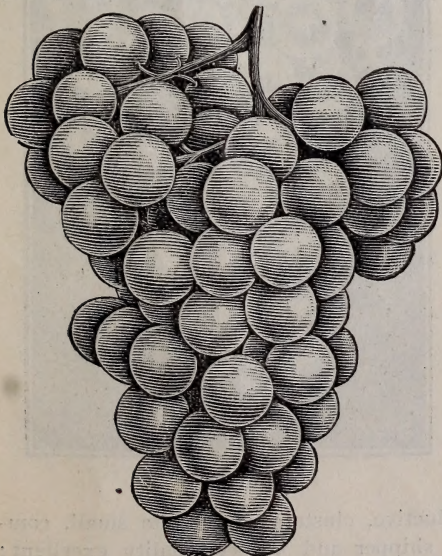

Dutchess.—Pale greenish yellow, Berries medium; flesh tender, juicy, sweet, spicy. Ripens soon after Concord. 12c. each, \$1 per doz., \$5 per 100.

Diana.—Red. Ripens soon after Concord; bunches medium and compact, good grower. Price 10c. each, 75c. per doz., \$3.50 per 100.

Elvira.—White. Bunch compact, medium size, good grower, used principally for wine. Price 10c. each, 75c. per doz., \$3.50 per 100.

Early Victor.—Black. An early black grape, ripening a week ahead of Concord. A good grower; berry small; bunch very compact; valuable for market or home use. Price 10c. each, 75c. per doz.

Etta.—White. Seedling of Elvira, with larger berries, firmer skin, and superior quality; hardy and productive. Price 12c. each, \$1 per doz., \$5 per 100.

MOORE'S EARLY.

Eumelan.—Bunch good size, generally compact, shouldered; berry medium; flesh tender, sweet; quality excellent; vine moderately vigorous; ripens just after the Hartford. One of the best table grapes. 12c. each, \$1 per doz., \$5 per 100.

Geneva.—Yellow. Bunches medium, berries large, good quality. Price 12c. each, \$1 per doz., \$5 per 100.

Hayes.—A seedling of the Concord, originating in Massachusetts, and pronounced by the Massachusetts Horticultural Society the best eating white Grape ever shown; ripens early in September. Bunch large, skin thin, berry juicy and very sweet. Vine a strong, rampant grower, and partakes of the ruggedness of its parent; altogether a very desirable variety, and well worth the attention of Grape growers. Price 12c. each, \$1 per doz., \$5 per 100.

GRAPES—Continued.

Isabella.—Black. An old, well-known sort ; large size ; dark purple ; sweet and rich, with a slight musky aroma. Beginning of September. Price 10c. each, 75c. per doz., \$3.50 per 100.

Jefferson.—Red. Extra large, fine quality, large and handsome bunch, medium size berries ; ripens with Catawba. Price 12c. each, \$1 per doz., \$5 per 100.

Lady.—Concord seedling ; berries large, light greenish yellow ; thin skin, pulp tender, sweet and rich ; vigorous and productive ; ripens early. Price 10c. each, 85c. per doz., \$4 per 100.

Lindley.—(Rogers' No. 9.) Bunch medium ; color, a rich shade of red ; flesh tender, sweet, with a rich aromatic flavor. Price 10c. each, 85c. per doz., \$4 per 100.

Merrimac.—(Rogers' No. 19.) Large berry, jet-black, fine quality. One of the best of Rogers' grapes. Price 12c. each, \$1 per doz.

Moyer.—A small early red grape, very hardy ; an excellent shipper ; juicy, sweet and tender to the center. 10c. each, 85c. per doz., \$4 per 100.

Diamond.—The leading early white grape, ripening before Moore's Early. White with rich yellow tinge ; juicy, few seeds, almost free from pulp, excellent quality ; above medium size, adheres firmly to stem. Vine like Concord in growth, hardiness and foliage. Fine variety for both market and home garden. Price 10c. each, 85c. per doz., \$4 per 100.

Moore's Early.—Bunch large, berry large, round, with heavy blue bloom, vine exceedingly hardy. Its earliness makes it desirable for an early market ; its hardiness particularly adapts it to Canada and Northern portions of the United States ; succeeds admirably in the south. Price 10c. each, 85c. per doz., \$4 per 100.

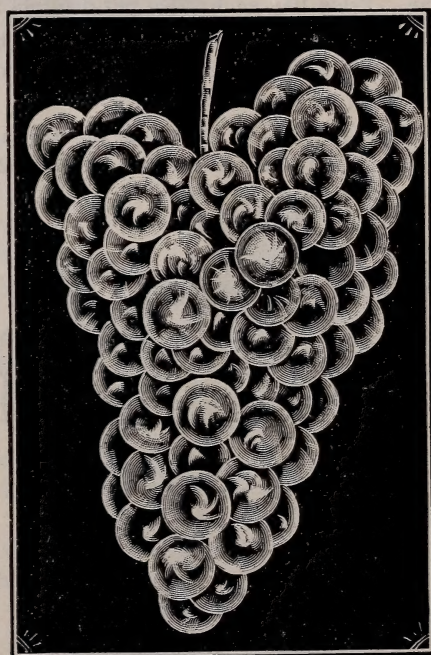

Niagara.—Occupies the same position among the white varieties as Concord among the black ; the leading profitable market sort. Bunch and berries large, greenish white, changing to pale yellow when fully ripe. Skin thin, but tough ; quality much like Concord. Price 10c. each, 85c. per doz., \$4 per 100.

Pocklington.—Or "Golden Pocklington," retains its popularity, and will probably take its place as a valuable standard Grape, being one of the largest and most showy white Grapes of the Concord type yet introduced. 10c. each, 85c. per doz., \$4 per 100.

Salem.—(Roger's No. 53.) A splendid coppery red grape, ripening with Concord ; delicate flavor, sweet, tender and juicy. One of the very best table grapes. Price 10c. each, 85c. per doz., \$4 per 100.

Telegraph.—Black. Ripens early, bunch about medium, very compact and extremely attractive. Berry medium, very vigorous, healthy, hardy and productive. Price 12c. each, \$1 per doz.

Ulster.—Vigorous, good foliage, very productive, clusters medium to small, compact ; berries good size, dull copper color, a good shipper and keeper ; quality excellent ; ripens early. Price 12c. each, \$1 per doz., \$5 per 100.

NIAGARA.

GRAPES—Continued.

Vergennes.—Very productive, clusters large, berries large, holding firmly to the stem, color light amber, flavor rich and delicious, flesh meaty and tender. Ripens early, and is an excellent late keeper. Price 10c. each, 75c. per doz., \$3.50 per 100.

Wilder.—(Rogers' No. 4.) Bunch and berry very large, round, flesh tolerably tender, sprightly, sweet and agreeable. Price 12c. each, \$1 per doz., \$5 per 100.

Worden.—A seedling of Concord. Handsome, early, black, healthy, vigorous and productive, with larger, longer bunches; better in quality, and 10 days earlier than its parent. 10c. each, 75c. per doz., \$3.50 per 100.

Wyoming.—Red. A popular market sort. Berry small, quality good; very productive and hardy, resembling Delaware somewhat; valuable for home use or market. Price 10c. each, 75c. per doz., \$3.50 per 100.

NOTE—If you wish them sent by mail, add 12 cents per dozen, 40 cents per 50.
6 at dozen rates, 50 at 100 rates, 500 at 1000 rates.

GARDEN ROOTS.

Rhubarb.—(Myatt's Linnæus.) Early, tender and very large; known as the sweetest of pie-plants. Price 10c. each; 75c. per doz., \$3 per 100.

Horse Radish.—Price, roots 25c. per doz., \$1 per 100, \$5 per 1000.

Received Strawberry plants. They are in fine shape. Many thanks to you for the promptness you have shown. R. A. TAMBLINGSON, Wis.

I got the plants Friday, they were in fine condition, and when I got them home I set them out. They are mighty fine plants.

W. C. MARVILLE, Mass.

Vines received O. K. Thanks. They are very fine. I have two acres I am thinking of putting in grapes next fall. May give you a better order then.

W. S. GRAY, Ga.

Enclosed find draft for Currant and Gooseberries. Stock was fine.

Iowa State Horticultural Society.

W. O. WILLARD, Iowa.

Stock at hand; good grade and in good shape, Thanks. WICHITA NURSERY ASS'N, Kan.

Plants received in good shape for which accept my thanks.

B. F. WHITE, N. C.

Stock arrived in due time and in fine condition. I am well pleased with it. I expect to get my whole supply of you. Wishing you success.

J. W. GRIESEMER, Ill.

I enclose check for amount of bill. The plants came to hand in fine condition, and are a very nice lot. I thank you for the favor and also for the extra plants.

ELI D. SULCTEFFE, N. Y.

Enclosed please find draft for plants. They were good and satisfactory. Will try and do better another year if all is well.

A. R. CAMPBELL, Col.

Order of Shrubs came to hand to-day. Were well packed and in fine condition when they arrived.

J. N. BARTELS & CO.

The vines, etc., arrived in good condition. Well pleased with the stock.

GEO. F. GREENAWALT, Pa.
